

AAMC

**COMBINED COD, COTH,
CMOG, GFP MEETING**

APRIL 5 – 8, 2013

Three Joint Sessions

- How to manage risk in changing healthcare environment
- Disruptive models in medical education
- Quality – why aren't we leading

Breakout Sessions

- Merging Cultures: Thriving in and/or Surviving Mergers
- Effective Leadership: Leading Differently for Academic Medicine
- Leveraging Workforce: Assembling the Right Health Care Team
- Having a Vision: Imagining the Future for Academic Medicine
- Critical Analysis: Right-Sizing the Research Enterprise
- Taking Risk: Bundling and ACOs in Academic Institutions

GFP Discussion

- **Steering Committee**
 - Focussed on Benchmarking Study
 - Purpose
 - Responses

- **GFP Session**
 - Hand of Cards

Merging Cultures: Thriving in and/or Surviving Mergers

Richard J. Liekweg, President, Barnes-Jewish Hospital

Larry J. Shapiro, M.D., Executive Vice Chancellor for
Medical Affairs and Dean, Washington University in St.
Louis School of Medicine

A small-group discussion session that explores essential
cultural concerns leaders must focus on early in a
merger process or major system expansion.

Effective Leadership: Leading Differently for Academic Medicine

Mark R. Laret, Chief Executive Officer, UCSF Medical Center

Samuel Hawgood, MBBS, Dean, University of California, San Francisco, School of Medicine

In his chair's address at the 2012 AAMC Annual Meeting, Mark Laret posed "central questions...we as leaders in academic medicine must answer." Small-group discussion during this breakout will examine whether institutions have the functional leadership capacity, alignment, and follow through to solve overwhelming challenges.

Leveraging Workforce: Assembling the Right Health Care Team

Laura L. Forese, M.D., M.P.H., Group Senior Vice President and Chief Operating Officer, NewYork-Presbyterian Hospital The University Hospital of Columbia and Cornell

Richard Liebowitz, M.D., M.H.S., Chief Medical Officer NYP-Columbia, Vice President, Medical Affairs, NewYork-Presbyterian Hospital The University Hospital of Columbia and Cornell

Small-group discussion of what needs to be done to ensure that clinicians work at the top of their license, the cost/reimbursement implications, and the impact on GME and tomorrow's workforce.

Having a Vision: Imagining the Future for Academic Medicine

Jose Manuel de la Rosa, M.D., Founding Dean and Vice President for Health Affairs, Texas Tech University Health Sciences Center Paul L. Foster School of Medicine

Paul Katz, M.D., Dean, Cooper Medical School of Rowan University

To meet physician-workforce needs, 15 new medical schools have launched in the past decade (these are described in a new publication funded by the Macy Foundation). Small-group discussion will explore where leverage exists at established institutions to return to a blank slate to achieve greater efficiency in the academic mission, design more effective learning environments for UME and GME, and calibrate mission with national and local workforce needs.

Critical Analysis: Right-Sizing the Research Enterprise

Robert Joseph Laskowski, M.D., M.B.A. President and Chief Executive Officer Christiana Care Health System

Vivian Lee, M.D., Ph.D., M.B.A., Senior Vice President for Health Sciences, Dean, and CEO, of University of Utah Health Care, University of Utah School of Medicine

Small-group discussion will concentrate on the opportunities for innovative, principled partnerships that may help sustain research missions as federal funding sources diminish. How can the research enterprise be tailored research to meet public expectations and demonstrate value to hospital partners? What new models for partnership and interdisciplinary science exist and how academic and hospital partners contribute to these and derive value from biomedical research?

Thinking Innovatively: GME Workforce Development, Advocacy, and Financing Alternatives

Thomas M. Priselac, President/CEO, Cedars-Sinai Medical Center

Thomas O. Enders, Managing Director, Manatt, Phelps & Phillips, LLP

Catherine R. Lucey, M.D., Vice Dean for Education
University of California, San Francisco, School of Medicine

Small-group discussion will explore the possible alternative models for financing GME and whether rethinking the continuum can help clarify who should pay for medical education in general and residency training in particular.

Communication: Social Media to Improve Patient Care

Bryan Vartabedian, M.D. Assistant Professor of Pediatrics Baylor College of Medicine

Ted Eytan, M.D., MS, MPH, Director, The Permanente Federation, LLC Kaiser Permanente, Center for Total Health

Vineet Arora, M.D., Assistant Dean, Scholarship & Discovery, University of Chicago Division of the Biological Sciences, The Pritzker School of Medicine

Small-group discussion of what patients want from a “health care system,” how social media can effectively be leveraged to improve patient engagement, and how this tool can be used to sustain/grow a meaningful social mission and community engagement despite fiscal restraints.

Taking Risk: Bundling and ACOs in Academic Institutions

Coleen Kivlahan, M.D., Senior Director, Health Care Affairs Health Systems, Innovation and Policy, AAMC

Steven M. Safyer, M.D., President/CEO, Montefiore Medical Center

Devdutta Sangvai, M.D., M.B.A., FAAFP, Associate Chief Medical Officer, Duke University Health System, Duke University School of Medicine

Small-group discussion of the lessons learned in the current accountable care organization demonstrations in which AMCs are participating.
